

# DIAL GAUGE SCREEN

PART NO. DIALGS10

## GENERAL OPERATION

The Dial Gauge screen is a high performance sunlight readable display typically used on Drills.

- 10.1" TFT colour display, resolution 1280 x 800 pixel, 16M colours.
- Dimmable LED backlight.
- Projected capacitive touchscreen.
- True glass design with multitouch operation.

By removing the high pressure gauges from within the cab and externally mounting pressure transducers outside of the cab and connecting to the Dial Gauge screen will make it safer for the operator.

## GENERAL INFORMATION

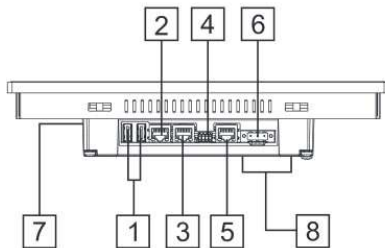

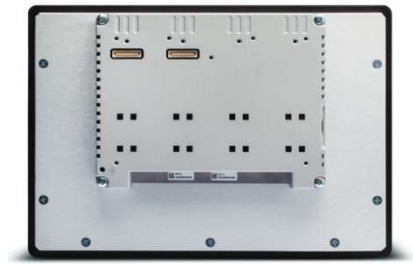

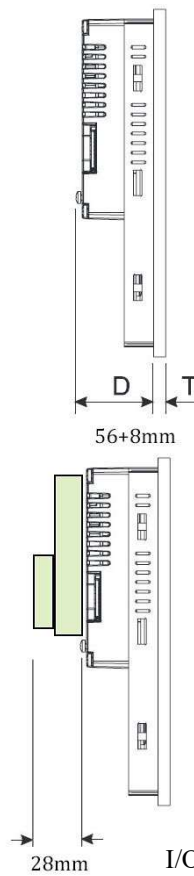

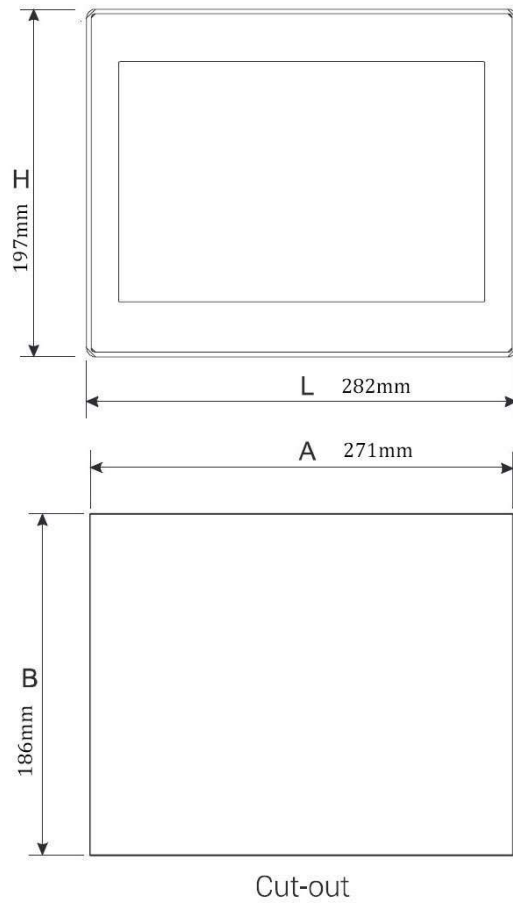

|                             |  |
|-----------------------------|--|
| Dimensions:                 | W: 282mm, H: 197mm, D: 64mm                                    |
| Power Supply:               | 24 Vdc (10 to 32 Vdc)  |
| Operating Temperature Range | -20 <sup>0</sup> to +60 <sup>0</sup> C (Vertical installation) |
| Protection                  | IP66 (front), IP20 (rear)                                      |
